Show-Me School-Based Health Alliance Overview

Missouri Coalition for Oral Health

2020 Policy Conference
Show-Me School-Based Health Alliance of MO

**Mission:** We support communities in building and sustaining quality school-based health programs.

**Target Audience**
School districts, community stakeholders, and the healthcare providers that serve them.

**Access to Resources & Best Practices**

**Peer-to-Peer Networking Across MO Programs**

**Advocacy & Coalition Building**

**Technical Assistance**

**Data Collection & Evaluation**

**Training & Education**
THE BIG SIX
The Show-Me School-Based Health Alliance has expanded the types of school-based health programs to represent the six types of programs that exist in districts throughout Missouri.

1. Comprehensive School-Based Health Center
Comprehensive School-Based Health Centers are a partnership between schools and community health organizations that deliver primary health care, behavioral/mental health care, oral care, and vision care coordinated by the center—even if they are delivered by different providers.

2. School-Based Health Center
School-Based Health Center (SBHC) programs are partnerships between schools and community health organizations that deliver primary health care, at minimum, through a fixed site on a school campus.

3. School-Linked Health Care
School-Linked Health Care programs are linked with schools to coordinate and provide health care for students. Services are delivered off campus through a fixed site near the school.

4. School-Based Mental Health Program
School-based mental health programs are partnerships similar to SBHCs but only provide behavioral/mental health.

5. Mobile Health Care
Mobile Health Care programs are without a fixed site that rotate a health care team through a number of schools, including mobile van/bus/clinic on wheels that parks on or near school property/campus.

6. Telehealth
Telehealth programs deliver 100% of school-based health care services using telemedicine technology.
2019 Census of SBH Programs

- Data collected from September 2019 – early March 2020
  - **Rounds 1 & 2:** Asked district lead nurses whether and which schools have SBH programs, then asked identified school contacts who sponsors their SBH programs
  - **Round 3:** Asked sponsoring organizations about their SBH programs
- Primary goal is to describe the SBH program landscape in MO for Alliance members, policy makers, funders, and other key stakeholders
- Finalized report to be released in May/June 2020; data collection to continue as we discover more programs
There are 18 confirmed organizations providing school-based oral health services in MO. FQHCs and look-alikes are the most common organization type.

- FQHC or look-alike: 67%
- Non-profit/community-based organization: 22%
- Local health department: 6%
- Hospital or medical center: 6%

Finalized report anticipated May/June 2020.
137,092 students enrolled in 370 schools across 98 districts have access to oral health services in a school setting.

Finalized report anticipated May/June 2020.
The vast majority of organizations provide oral health services via mobile units (N=18).
