

# Missouri Regional Data Snapshot

Knox County – Comparison of Treatment Urgency (Urgent Care), Rampant Caries, and Untreated Decay for Knox Elementary School and Edina Head Start school.

---

## Key Terms:

- **Urgent Care:** A child who needs care within the next 24-48 hours due to pain or an infection.
- **Untreated Decay:** Defined as having dental cavities/tooth decay that have not received appropriate treatment.
- **History of Rampant Caries:** Suddenly appearing, widespread, rapid burrowing types of decay that result in early nerve involvement in 7 or more teeth.
