Realities of Medicaid:

*A Model for Anesthesia Services through MO HealthNet*

Friday, September 1

10:00—11:00 AM

Most dental providers encounter the same barriers whether they are enrolled with Medicaid or not. This session will present a model of how Medicaid providers can address the barrier of Sedation/Anesthesia. Hear firsthand how dental providers can see Medicaid patients and provide the Sedation/Anesthesia services they need.

**Learning Objectives:**

- Providers will hear from an experienced dental provider about how they provide anesthesia services to Medicaid participants.
- Providers will learn about how to address accessing anesthesia services in their practice.
- Providers will better be able to serve the Medicaid population.

**Speakers:**

Dr. Michael Todd, *Accent Dental* and Dr. Thomas Saak, *Premier Anesthesia*

*There is no fee for attendance, but you must register to attend.*
