Realities of Medicaid:

**A Model for Orthodontic Services through MO HealthNet**

Friday, September 15

2:00—3:00 PM

This session will present a model of how Orthodontic services can be offered to Medicaid participants. Hear firsthand how dental providers can see Medicaid patients and provide the Orthodontic services they need.

**Learning Objectives:**

- Providers will hear from an experienced dental provider about how they provide orthodontic services to Medicaid participants.
- Providers will learn about how to provide or access orthodontic services in their practice.
- Providers will better be able to serve the Medicaid population.

**Speakers:**

Dr. Robert Waxler and Dr. Jeff Cavanaugh

*There is no fee for attendance, but you must [register to attend](#).*
